

About Us

See also the **BU** page about us.

Basic information

- [Address, email, phone, fax](#)
- [Directions to the department](#)
- [Administrative Personnel](#)
- Chairs of certain committees
- The department's by-laws
- [Internal department documents](#) (for department computers only)

For our academic programs, activities, or whether we are hiring, see the links at the left.

History

- An [interview](#) with former chairman, Jim Kent
- About the late [Almir Olimpio Alves](#)
- About the late [Peter Hilton](#)
- About the [annual lecture in memory of Peter Hilton](#)

Who are we?

- We are a group of mathematicians and statisticians.
 - The research interests of our faculty members can be divided into five general areas: Algebra, Analysis, Combinatorics, Statistics and Topology/Geometry. Read the [Research areas](#) page for interests of each faculty member. Most of us have interests in more than one area.
- We are educators.
- We are joined by many hard-working and talented undergraduate and graduate students.

Art Gallery

See some Mathematical Sculptures by [Alex Feingold](#)
